

Connecting Businesses With Their Best Customers

What Our Clients Say

“Leads Near Me is an amazing source for your marketing needs. The most impressive attribute of his company is how tuned in to the customer’s needs and success they are. I have dealt with several other marketing companies, both internet and direct marketing in the past and it seems that accuracy and attention to customer needs were not important to those other marketing firms. Furthermore, Leads Near Me obviously takes pride in their work and are not looking for the quick buck. I get the sense they are trying to build a solid reputation and a loyal customer-base. It’s this level of professionalism alone that will make us choose Leads Near Me over any other marketing firm. It has been a true pleasure to work with Leads Near Me. Their expertise and level of customer service is outstanding. The website they created for us is not only easy to use, but it looks great and has really helped to drive new customers to our business! They really helped us a lot... I can confidently recommend Leads Near Me as a solid and reliable company. ”

What Our Clients Say

“I have been doing business with Ryan (Leads Near Me) for 3 years, first with Money Mailer and now with website and SEO marketing. What initially attracted me to working with Ryan Burton Marketing, was Ryan's genuine desire to help my business grow and increase in productivity. I have had many salesman come into my office with "canned" sales pitches that did come close to addressing any of my marketing concerns. But Ryan's approach was to learn about my particular challenges and tailor a program that would fit my practice's needs. The best part about it, was that it was indeed Ryan that tailored the program and not someone else. I like that fact that the individual that I built the relationship with was the guy who could also do the work. That was a much added bonus. And because I want to understand every part of my business Ryan took the time on several occasions to patiently and thoroughly answer all of my questions and concerns without hesitation. So, if you are looking for someone knowledgeable, capable and who wants to his clients to really succeed, I highly recommend that you give Ryan Burton Marketing a call. You won't regret it!”

What Our Clients Say

“We seemed to have an endless line of people soliciting to help us with our website and on-line presence, and in trying some, I always got the feeling they were more interested in the fees that we would pay them, rather than actually helping us. An off-hand discussion led to Ryan Burton Marketing (Leads Near Me) looking at our online listings and with some basic analytics they were able to readily view and fix. It was disappointing to see how poorly managed our overall online presence was, and how even a minimal effort to better coordinate could yield great improvement to our online presence. Ryan Burton Marketing worked on our site and listings and increased web traffic became apparent almost immediately. I don't know why some of the other folks who we had paid for some of these services had not already made these seemingly simple changes! After our initial discussion on our Internet marketing, Ryan Burton Marketing made additional suggestions and became involved with our overall marketing strategies. We've done 2 direct mail campaigns with Leads Near Me's feedback has been helpful with other marketing decisions. Being an Ace Hardware dealer, I thought we had "the big picture" covered, but working with Ryan Burton Marketing has shown us how much more we can expand our two store's local business through various plans to target our local markets. I highly recommend Ryan Burton Marketing.”

What Our Clients Say

“Metro Mattress Outlet has been dealing with Ryan Burton Marketing for about 4 years now. It has been very good for our business. We have seen a huge increase in web traffic since they have been hosting our site and an increase in sales. Ryan Burton Marketing keeps us up to date on all our dealings in our monthly meetings, and we are very comfortable with their services. For years we have had sales people coming in selling us advertising and leaving, with no results. Ryan Burton Marketing is in constant contact and we actually make sales from their advertising services. We would highly recommend that you use Ryan Burton Marketing for your advertising.”

What Our Clients Say

“I found Ryan Burton Marketing via an online search. I called him in and told him that I wanted customers to find me, just like I found him. And I signed a one year contract with him right there on the spot. Best marketing decision I've ever made. Working with Ryan Burton has been a magnificent step in the right direction for our overall marketing plan. Ryan has been attentive and professional at every step of the way. But most importantly, I am starting to see results from his work. My call volume has gone up as well as the number of online inquiry's. But here is what has impressed me the most about Ryan. During the initial start up we hit a snag with some of the new Google algorithms that were coming out. This started to impact the ranking of online searches for my company. Needless to say I was greatly concerned. Ryan could have easily passed the buck on and rightly blamed it on Google. Instead, he took full responsibility for the situation. He and his team worked diligently logging many hours of overtime trying desperately to resolve the problem from their end. Overtime that they never charged me for. Ryan took personal responsibility for my success and was able to successfully resolve the problem. As I'm sure you well know, trying to resolve a problem with Google is like complaining to God about the weather. Needless to say, Ryan and his team were successful, and my website has never performed better. Ryan Burton has more than earned my respect. He has earned my trust.”

What Our Clients Say

“LNM offers quality personalized service. You're not dealing with some operator that only knows your name because it's on their screen. Ryan (President & CEO) personally met with me to design my ad campaign. He reviews the campaign multiple times a day and makes adjustments to maximize effect. I received calls and business in my first week with Ryan managing my Google AdWords campaign. Three weeks into the campaign not only are the number of leads increasing but the quality continues to escalate as Ryan works his magic. I'm very pleased with Leads Near Me and would recommend their service to any business seeking growth.”

What Our Clients Say

“Not all web design companies are created equal. That became crystal clear to me after I hired Leads Near Me to design my new website. Prior to Leads Near Me, I was using a web design company that I was disappointed with, to put it mildly. Not only was I being charged premium prices for a sub-premium design, I was also dealing with a company who was totally unresponsive when I requested changes. Leads Near Me was the polar opposite. At my first consultation, Ryan Burton, the President and CEO, came up with an immediate plan to address my needs, then jumped right on it. Not only was he accessible, he involved me in every step of the process, presenting me with design options I didn't even know I had. He also provided guidance when he disagreed with some of my own suggestions, explaining why they weren't necessarily the best option(s) available, and steered me toward better alternatives. I now have a website that is well-designed, informative, easy to navigate, and which I am pleased to send my clients to. What a switch from before. I highly recommend Leads Near Me if you are in need of a new website, and are looking for designer who is responsive, reputable, and truly knows what they're doing.”
